

# "Sinau Bash" Program for Learning Bash Commands

Kuriyanto Adi Saputro, Teacher SMK Negeri 1 Kragilan

# About Bash

# About Bash

Bash is a Unix shell and scripting language that is the default shell on most Linux and macOS systems. Bash was developed by the GNU project as a free-licensed.

# About Sinau-Bash

# About Sinau-Bash

Sinau-bash is a simple program built from the bash language. Sinau in Javanese means learning, so the meaning of sinau bash is learning to bash.

The Sinau-bash program contains simple questions that must be answered in bash.
