Welcome to the first ever UbuCon Asia!

by **UbuCon Asia organizers**

UbuCon Asia? Ubuntu?

You might already know. But for those who heard about this for the first time, Here's short description.

Ubuntu - ubuntu.com/about

- An ancient african word meaning “Humanity to others” And a debian-based linux distribution that brings this spirit.
- Started as debian-based easy-to-use Linux Desktop. And now it runs on everywhere for various purposes.
 - Personal computing: Desktop, Laptop, Workstation
 - For running infrastructure: On-premise server, Cloud, Container, Telcos
 - For small things: Embedded devices, Appliances, Internet of Things
 - Windows Subsystem for Linux
- Driven by communities around the world.
 - Also localized into various languages by local community people.
